ABOUT

Full-Stack Developer with experience building production web applications using React, Next.js, Node.js, and PostgreSQL/MongoDB. Experienced in building REST APIs, optimizing application performance, and developing AI-powered applications using LLM APIs.

EXPERIENCE

SkillsCapital

Feb 2025 – Apr 2026

Software Developer

Remote

- Developed responsive dashboards, landing pages, and AI-driven interfaces using **Next.js**, **TypeScript**, and **Tailwind CSS**, building reusable components and integrating frontend workflows with backend services.
- Built and integrated RESTful APIs using **Node.js**, **Express.js**, **MongoDB**, and **AWS SQS** to support scalable, asynchronous application workflows and background processing.
- Improved frontend performance and SEO through server-side rendering, lazy loading, and optimized asset delivery, increasing Lighthouse performance scores by 25%.
- Collaborated with designers and product teams using **Figma** and **Git** to deliver production-ready features across frontend and backend systems.

Hashtek Solutions

Mar 2024 – Nov 2024

Full-Stack Developer (Part-Time)

Remote

- Developed responsive web dashboards using **React.js**, **Next.js**, **TypeScript**, and **SCSS**, and built mobile application interfaces using **React Native** (Expo), integrating REST APIs and reusable UI components.
- Optimized application performance through component memoization, lazy loading, efficient state management, and rendering optimizations, reducing unnecessary re-renders and improving user experience.
- Designed and implemented RESTful APIs using **Express.js** and **PostgreSQL**, and integrated **AWS Cognito**, **SNS**, and **DynamoDB** to support secure authentication, notifications, and scalable backend services.
- Containerized backend services using **Docker** and deployed microservices on **AWS**, improving deployment consistency across environments.

TECHNICAL SKILLS

Languages: JavaScript, TypeScript, Python, C++

Frontend: React.js, Next.js, Redux Toolkit, Jest, HTML, CSS

Backend: Node.js, Express.js, FastAPI, MongoDB, PostgreSQL, Redis

Cloud & Tools: AWS, BullMQ, Docker, Git, GitHub

PROJECTS

Slugy.co | AI-Powered Link Management Platform | Full-Stack

Preview

- Built and deployed an AI-powered SaaS platform using **Next.js**, **TypeScript**, **Prisma ORM**, **PostgreSQL**, and **Redis**, integrating **Google Gemini** for AI-powered slug generation.
- Implemented **Redis** caching for high-frequency URL lookups and moved analytics workloads to **Tinybird**, reducing database load and improving redirect performance.
- Implemented subscription and payment workflows using **Polar**, along with secure form validation using **React Hook Form** and **Zod**.

LearnGo | Learning Management System | Full-Stack

Preview

- Developed a responsive LMS platform using **Next.js**, **TypeScript**, and **Tailwind CSS**, focused on smooth user experience and reusable UI components.
- Built backend APIs and database workflows using **Prisma ORM** and **PostgreSQL**, with schema validation through **Zod**.
- Integrated **Mux** for video streaming and **Stripe** for secure payment handling and course purchases.

EDUCATION

National Institute of Technology, Agartala

Sep 2020 – Jun 2024

B.Tech in Engineering Physics

Agartala, India
